

Please do not implement any proposal  
that would lessen Indiana's Telephone  
Indiana's Telephone Privacy law  
protections. It has worked wonders  
since I chose that option a while back.  
We used to get calls annoying  
telemarketing calls daily during  
dinner, and even late evenings, etc.  
which interrupt our much needed  
"quality family time." Now,  
we hardly get any calls at all!  
Please do not implement a Federal  
Law that will affect Indiana's Law.  
Thank You.
